Re: Annual Report of Hazardous Waste Exports for RY 2012

Dear Mr. Small:

The enclosed Annual Report of Hazardous Waste Exports for Reporting Year 2012 is submitted as required by 40 CFR 262.56. These two reports summarize the type, quantity, and ultimate destination of the "hazardous waste" exported during RY2012.

The "hazardous waste" in this case is kettle dross, malformed or damaged plates, scrap grid metal, Spent Lead Acid batteries (SLABs) and other lead-bearing scrap from the manufacture of lead-acid batteries sent for reclamation at a permitted facility. Please note that under federal regulations, the referenced material would be exempt from classification as a hazardous waste under 40 CFR 261.2(c)(3), as a material being reclaimed.

Please contact our EHS Manager, David Qualls at (479) 649-2147 or at david.qualls@exide.com should you require additional information or need to discuss the report.

Thank You,

A handwritten signature in blue ink, reading "Richard E. Kaestner". The signature is written in a cursive style with a large, sweeping "R" at the end.

Richard E. Kaestner
Plant Manager – Exide Fort Smith

Enclosure: Fort Smith Hazardous Waste Export Report RY 2012

Annual Report of Hazardous Waste (SLAB) Exports for CY 2012

1. Primary Exporter (Consignor)

Name: GNB Industrial Power dba Exide Technologies
Site and Mailing Address: 4115 South Zero Street
Fort Smith, Arkansas 72908
EPA ID No.: ARD 075 656 454

2. Consignee

Name: Newalta Inc.
Site and Mailing Address: 1200 Garnier Street
STE Catherine Quebec, Canada
JOL1E0

3. Transporters

Name: Transport Jocelyn Bourdeau Inc
Mailing Address: 845 Notre Dame CP600
St-Chrysostome, PQ
JOS1R0

4. Waste and Shipping Information

1. **Description of Waste:**
Recyclable Spent Lead Acid Batteries (SLAB's) wet, filled with acid
2. **EPA hazardous waste numbers:** D009, D008, D006
3. **US DOT proper shipping name, hazard class and ID number:**
Recyclable Lead Bearing Scrap:

Waste Corrosive Solid, acidic, inorganic, n.o.s., (sulfuric acid), 8, UN3260, PGII, RQ (D009 – corrosive, D008 – lead, D006 – cadmium)
4. **Number of Shipments during the Calendar Year 2012:** 1
Total quantity of recyclable Spent Lead Acid Batteries exported: 42,634 lbs

6. Waste Minimization Statement:

Submitted with Biennial Report pursuant to 40 CFR 262.41.

7. Certification:

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment.
